Re: Notice of Intention to Commence Small Mining Operations L.C.
and K.C.L. Claims Iron County, Utah

Dear Mr. Whited:

In response to your letter dated February 10, 1992, we refer you to our January 3, 1992 letter wherein we request that this office be contacted as soon as possible to discuss the need for permits, and the permitting process. If you chose to continue to respond in writing, you need to provide more detail concerning your process. It cannot be determined from the information provided what your permit requirements may be.

Please be advised that all environmental permits must be obtained prior to the commencement of operation.

Sincerely,

Wayne Thomas, P.E.
District Engineer
Department of Environmental Quality

cc: Division of Water Quality
Division of Air Quality
Division of Oil Gas and Mining
Southwest Utah Public Health Department
